16. LEA Conditions

- a) The Amended RDSI dated August 27, 1999, and subsequent approved RDSI Amendments shall reflect the current operation at this facility. The operator must file amendments to the RDSI prior to making changes in the design and operation from those outlined in the RDSI. Such RDSI Amendments or lack thereof may become the basis for changes in the permit or for revocation of the permit.
- b) The operator shall stockpile at least two weeks supply (2000 cubic yards) of soil suitable for daily cover material on site at all times.
- c) The operator shall submit revised maps showing the proposed buffer area along the west property line when the purchase becomes final. This purchase shall not increase the available disposal area of the facility and shall not require a permit revision.
- d) Additional information related to compliance with this permit or information concerning the design and operation of this facility shall be furnished to LEA upon request.
- e) The LEA reserves the right to order the operator to suspend and/or modify operations at this facility when deemed necessary due to any emergency, potential health hazard and/or public health nuisance.
- f) The operator shall maintain a complete copy of this SWFP, Report of Disposal Site Information and State Minimum Standards for Solid Waste Disposal Sites at the site at all times.
- g) Liner design and construction shall be required prior to any lateral expansion of the landfill beyond the boundaries of Modules 1 & 2.
